No health insurance coverage	0	+/- 12	0%	+/- 18.5
Not in labor force:	416	+/- 144	416%	+/- (X)
With health insurance coverage	376	+/- 143	90.4%	+/- 11.6
With private health insurance	309	+/- 130	74.3%	+/- 14.5
With public coverage	113	+/- 72	27.2%	+/- 11.6
No health insurance coverage	40	+/- 49	9.6%	+/- 11.6
PERCENTAGE OF FAMILIES AND PEOPLE WHOSE INCOME IN THE PAST 12 MONTHS IS BELOW THE POVERTY LEVEL				
All families	(X)	+/- (X)	6.4%	+/- 5.6
With related children under 18 years	(X)	+/- (X)	11.4%	+/- 10.1
With related children under 5 years only	(X)	+/- (X)	20%	+/- 24.9
Married couple families	(X)	+/- (X)	1.7%	+/- 2.6
With related children under 18 years	(X)	+/- (X)	3.1%	+/- 4.8
With related children under 5 years only	(X)	+/- (X)	0%	+/- 30.7
Families with female householder, no husband present	(X)	+/- (X)	5.8%	+/- 7.3
With related children under 18 years	(X)	+/- (X)	9.2%	+/- 11.5
With related children under 5 years only	(X)	+/- (X)	0%	+/- 39.6
All people	(X)	+/- (X)	7.5%	+/- 5.1
Under 18 years	(X)	+/- (X)	10.4%	+/- 8.4
Related children under 18 years	(X)	+/- (X)	10.4%	+/- 8.4
Related children under 5 years	(X)	+/- (X)	13.3%	+/- 16.7
Related children 5 to 17 years	(X)	+/- (X)	8.8%	+/- 9
18 years and over	(X)	+/- (X)	6.5%	+/- 4.4
18 to 64 years	(X)	+/- (X)	7.3%	+/- 5
65 years and over	(X)	+/- (X)	0%	+/- 11.2
People in families	(X)	+/- (X)	5.7%	+/- 4.6
Unrelated individuals 15 years and over	(X)	+/- (X)	17.3%	+/- 11.7

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Employment and unemployment estimates may vary from the official labor force data released by the Bureau of Labor Statistics because of differences in survey design and data collection. For guidance on differences in employment and unemployment estimates from different sources go to Labor Force Guidance.

Workers include members of the Armed Forces and civilians who were at work last week.

Occupation codes are 4-digit codes and are based on Standard Occupational Classification 2010.

Industry codes are 4-digit codes and are based on the North American Industry Classification System (NAICS). The Census industry codes for 2013 and later years are based on the 2012 revision of the NAICS. To allow for the creation of 2011-2015 tables, industry data in the multiyear files (2011-2015) were recoded to 2013 Census industry codes. We recommend using caution when comparing data coded using 2013 Census industry codes with data coded using Census industry codes prior to 2013. For more information on the Census industry code changes, please visit our website at <https://www.census.gov/people/io/methodology/>.

Logical coverage edits applying a rules-based assignment of Medicaid, Medicare and military health coverage were added as of 2009 -- please see https://www.census.gov/library/working-papers/2010/demo/coverage_edits_final.html for more details. The 2008 data table in American FactFinder does not incorporate these edits. Therefore, the estimates that appear in these tables are not comparable to the estimates in the 2009 and later tables. Select geographies of 2008 data comparable to the 2009 and later tables are available at <https://www.census.gov/data/tables/time-series/acs/1-year-re-run-health-insurance.html>. The health insurance coverage category names were modified in 2010. See https://www.census.gov/topics/health/health-insurance/about/glossary.html#var_textimage_18 for a list of the insurance type definitions.

While the 2011-2015 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2011-2015 American Community Survey 5-Year Estimates

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
